25X1X

1. The Tutow (N 54/P 60) airfield was unoccupied on 10 December 1949 although the landing field was serviceable. No reconditioning work was observed.
2. The field was not occupied by Soviet Air Force units on 1 January 1950. There were no concrete runways on the two landing fields which were in fairly good condition. The debris of hangars was almost completely cleared. A ditch, 1 x 0.75 x 25 meters, was being excavated on the northeastern landing field.

25X1A

Comment:

Although clearing work was done at the field in late 1949 there have been no indications of an intended occupation of the field by an air unit. The northeastern landing field where a ditch is being excavated is temporarily unserviceable for the landing of aircraft.
